

THE O / A SINGLE, RECOGNIZABLE SIGNATURE

Your time.

A considered identity for the hours after.

APPLICATION PROPOSALS

Made to be worn.

Comfortable silhouettes.

Quiet branding.

Details that belong together.

The clock mark is the signature. Give it room, repeat it consistently, and let the clothing carry the rest.

THE CAPSULE

Oversized hoodies

Baggy sweats

Hats

AI concept. Supplied vectors govern exact logo geometry and colour; physical samples still required.

One mark. Clear roles.

01 / PRIMARY WORDMARK

Use the full logo for first recognition: garment fronts, packaging lids, hangtags and neck branding.

02 / SECONDARY SYMBOL

Use the clock on the thigh, on a seal, or alongside an established wordmark.

Light ground: Ink + Rust.

Dark ground: Bone + Sun.

One-colour files serve tonal or single-thread applications. Use the supplied small side master for compact embroidery.

A quiet base. A warm signal.

Bone	Ink	Rust	Sun	Sage
#ECE5D3	#1F2733	#B4552D	#D29B3C	#9AA383

Bone and Ink do most of the work. Rust belongs to the clock on light grounds; Sun belongs to the clock on dark grounds. Sage is a secondary supporting colour.

Your time.

UNBOUNDED BOLD / DISPLAY

Clothing for the hours after.

ARCHIVO / SUPPORTING COPY

Screen targets shown. Approve physical paper, ink, fabric and thread samples before production.

Small mark. Strong presence.

01 / OVERSIZED HOODIE

80 mm wide / wearer's left chest

02 / BAGGY SWEATS

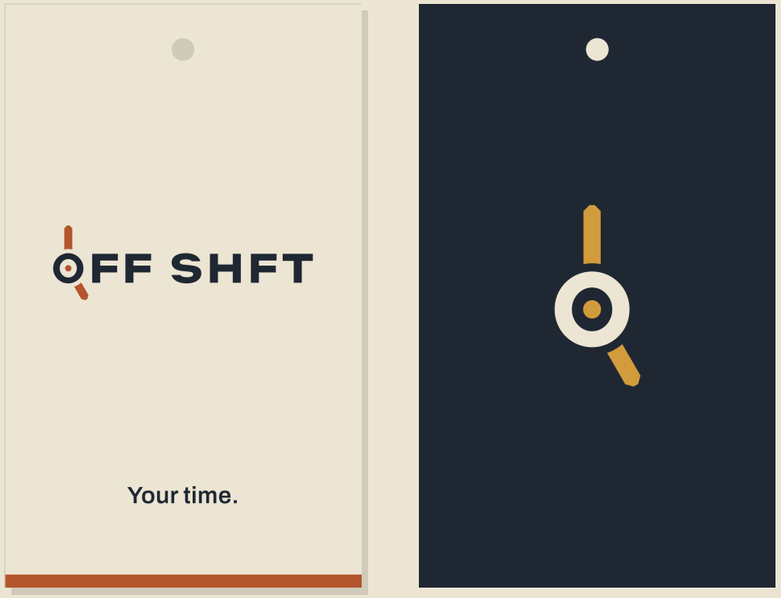

25 mm tall / upper thigh

03 / HAT

62.64 x 18.04 mm / front

Not to a common scale. Fit on the selected blanks and approve a sew-out at each artwork size.

The details make it yours.

01 / TWO-SIDED HANGTAG

55 x 90 mm finished.

Bone front. Ink reverse.

3 mm bleed supplied.

02 / WOVEN BRAND LABEL

90 x 35 mm visible face, plus 7 mm end folds. A spacious home for the full wordmark; keep verified care and product details on a separate label.

Design proposals. Sample the weave, fold, hole position and attachment method with the selected supplier.

A complete arrival.

OFF SHFT

Your time.

OFF SHFT

Your time.

03 / BOX TOP

300 x 220 mm indicative panel.

04 / INSERT + 05 / SEAL

148 x 105 mm card. 45 mm circular seal.

A few rules. Every time.

01

Protect the artwork.

Use the supplied outlines. Keep the clock hands, pivot, proportions and letter spacing intact.

02

Leave clear space.

Recommended: one O-ring diameter beyond the entire mark, including the tips of both hands.

03

Choose the correct master.

Full logo for recognition. Symbol for secondary placements. Side master for embroidery below the main symbol size floor.

04

Respect the size floors.

Hat front: cap 7 mm. Symbol: 19 mm minimum in two colours; 20.5 mm in one colour. Digitize every size; never scale stitch files.

05

Keep colour intentional.

Bone: Ink + Rust. Slate / Spruce: Bone + Sun. Moss / Rust: Bone one colour. Oat: colour only after a successful sew-out.

06

Prove the physical result.

Review real fabric, stitch channels, print colour, label comfort and placement before production. Mockups do not prove quality.

Ready to carry forward.

The chosen logo is the foundation. The new application files give it a consistent place across clothing and packaging.
