# OFF SHFT

You put in the hours. This time is yours. One clock at 5:00, quitting time, with the hands standing outside the O.

## THE LOGOS AND WHERE THEY GO

### One-line logo

Hat fronts, the website header, packaging, anything wide.

Embroidered: letters 7 mm tall (62.6 mm wide). Screens: 100 px wide.

### Stacked logo

Every square or circle: profile pictures, app icon, Shopify square logo, round stickers.

Screens: 40 px. Below that, the tab icon.

### Clock

The back or side of a hat, patches, die-cut stickers. Never alone in a square.

Embroidered: 19 mm tall (side master below that). Screens: 48 px tall.

### Tab icon

The browser tab only. Drawn pixel by pixel at 16, 32 and 48 px.

Use the size it was drawn for; never scale it.

## COLOURS

Thread and screen colours. On screens, Bone is the light background and Slate the dark one.

- **Ink** #1F2733 RGB 31 39 51 — Letters and ring
- **Bone** #ECE5D3 RGB 236 229 211 — Letters on dark; screen background

## TYPE

**OFF SHFT**

**Unbounded Bold**, capitals, letter-spacing 0.12 em: the logo, headings and every phrase on a hat. Embroidered letters at least 6.6 mm tall.

Archivo for everything else you read on the website.

Both are free Google Fonts.

## SPACE AROUND IT

Leave at least the height of the letters clear all round, measured from the tips of the hands.

## DON'T

- Put the hands inside the ring, crop them or shorten them.
- Put the clock alone in a square. Squares get the stacked logo.
- Stretch, redraw, outline, add shadows or set the name in another font.
- Use colour pairs other than the ones in the fabric table.
- Scale the tab icon, or use the embroidery files as screen art (or the reverse).

Thread colours are targets: match each on a physical thread card (Isacord 40 or Madeira Polyneon 40) and approve from a sew-out. Files and which one to use: the brand folder's README. Embroidery masters and stitch notes: designs/mark/final/the-o.
